The Veterans of Foreign Wars, Department of California Golden Age Games/Wheelchair Games Programs are an expensive endeavor and we would invite all to join with us in supporting these most worthy veterans in their health maintenance and care.

Veterans under VA care, inpatient or outpatient, are potentially eligible to compete in these events. For the National Veterans Wheelchair Games (NVWCG) all competitors must be wheelchair (power or manual) users. For the National Veterans Golden Age Games (NVGAG), competitors must be 55 or older (ambulatory, non-ambulatory or vision impaired).

The NVGAG's and the NVWCG's events are very expensive for our California teams. All posts, auxiliaries and pup tents as well as businesses and individuals are urged to donate to this premier rehabilitation and therapeutic program. Competition applications for either of the games are obtained from the Department of Veterans Affairs Recreation Therapy Offices in the VA Medical Centers or on-line at www.va.gov and insert the name: National Veterans Golden Age Games or National Veterans Wheelchairs Games in the search block. These applications are usually available about five months prior to the events.

The Veterans Golden Age/Wheelchair Games Fund is a viable VFW program. Each District and Post must have their own chairman to coordinate reports and fund raising activities for the program.

The Wheelchair Games Program funds are restricted and can only be used for National Veterans Wheelchair Games or the National Veterans Golden Age Games Program.

Important! – To qualify for awards a Post must submit an online report.
